Trainee Experience

I am Jagannath Bag from Hetampur KC college. After completion of B. Sc. I was Not Definite with career path. Alivus provided great opportunity to kick start my career as a Production trainee, now I am Officer at Alivus thriving towards the success of my career.

My name is Niladri Maity from Vidyasagar University. To come Gujarat I was bit nervous but Alivus took all the care of Accomodation facility & travelling. The technological advanced L&D program helped to understand industry well. I am grateful for opportunity to learn and grow in such a promising company.
