Ref. No. : BBMKU/ RD / 01 /2026 **Date: 09.11.2026**

NOTIFICATION

Provisional list of applicants for Ph.D. admission interviews 2026

In continuation of University Notification No. BBMKU/DSW-342 Part-II/R/1916/2026 dated 22.10.2026 and Corrigendum No. BBMKU/R/1936/2026 dated 24.10.2026, the applicants listed in **Annexure A** are provisionally shortlisted for interview for admission to the Ph.D. Programme, subject to verification of their eligibility and original documents.

1 Governing provisions

The processing of the final result and preparation of the provisional selection list shall be based on the following provisions, read with applicable amendments, the University's Ph.D. regulations, SOP, prospectus and duly approved admission decisions.

(i) University Grants Commission (Minimum Standards and Procedure for Award of Ph.D. Degree) Regulations, 2022, notified on 07.11.2022.

(ii) UGC Public Notice No. F.4-1(UGC-NET Review Committee)/2024(NET)/1406-48 dated 27.03.2024 / 7 Chaitra 1946.

(iii) The applicable reservation policy and orders of the Government of Jharkhand and the approved subject-wise category distribution of seats.

2 Instructions to applicants

(a) Attend the interview at the concerned University Department on the date, reporting time and venue communicated by respective University Departments.

(b) Bring the submitted application, photo identity proof, all original certificates and one set of self-attested copies. These shall include PG degree and marksheets, NET/UGC-CSIR NET/JRF/GATE or other accepted qualifying certificates and scorecards, proof of date of birth, and applicable residence, caste, non-creamy-layer, EWS and PwD certificates. Produce updated certificates wherever required under the earlier notices.

(c) Submit a **statement of purpose** describing the research interest area in **two copies**, as required by the University SOP/prospectus. Be prepared to discuss subject knowledge, research aptitude and the proposed area of research.

(d) Admission and interview participation are subject to verification of identity and fulfilment of the prescribed eligibility requirements. Report with sufficient time for original-document scrutiny before the interview.

Method of preparing the merit score

3 NET categories and applicable calculation

UGC NET Category I denotes JRF qualification; Category II denotes eligibility for Assistant Professor and Ph.D. admission; and Category III denotes eligibility for Ph.D. admission only. The applicable certificate, scorecard and JRF award, verified by the Department, shall determine the method used for each applicant. The interview shall be conducted out of **30 marks in every case**.

Verified qualification / result format	Examination component	Final merit score out of 100
JRF-qualified applicants	Interview-based selection	(I ÷ 30) × 100
NET Categories II and III with marks available, including older NET qualifications admitted under University provisions	W = (M ÷ T) × 70	W + I
NET applicants with only percentile scores available	Interview-based selection	(I ÷ 30) × 100
NET results published before December 2018 for which marks were not issued/JET	Interview-based selection	(I ÷ 30) × 100

I means the interview marks obtained out of 30. M means the verified marks obtained in the qualifying NET examination. T means the corresponding maximum marks. W means the applicable component out of 70.

4 Reservation and selection

The subject-wise provisional merit-cum-selection list shall be prepared on the applicable final score out of 100, subject to the Government of Jharkhand reservation policy, the approved roster and category-wise seats, verified category entitlement and the available supervisory capacity. UR seats shall be filled on open merit for eligible candidates of all categories in accordance with applicable provisions. PwD claims shall be dealt with under the applicable horizontal-reservation provisions.

Reserved-category applicants from outside Jharkhand shall be considered under UR in accordance with the advertisement. Category, residence, non-creamy-layer, EWS and PwD entitlement shall be verified from the prescribed documents. Vacant reserved seats shall be dealt with strictly under the applicable State rules and authorised University decisions.

The University shall apply its approved provisions uniformly for resolving tied scores. Final scores shall be published to two decimal places after retaining full calculation precision during processing.

Instructions to Departments and Interview Boards

5 Constitution of the Interview Board

The Interview Board for the Ph.D. admission interview/viva-voce shall comprise the following members.

S. No.	Composition of the Interview Board
1	Dean of the concerned Faculty
2	Head of the Department
3	All faculty members of the Departmental Research Committee (DRC)
4	At least one subject expert from outside the University/institution, or a senior faculty member from a sister Department
5	A representative of SC/ST/OBC/PwD categories

6 Verification and assessment

The Head of Department shall arrange scrutiny of the originals of all applicants reporting for the scheduled interview session. The Interview Board shall commence interviews **only after verification for that session is completed** and the eligible list is certified. Record attendance, qualifying-examination marks, NET certificate validity, JRF status and category entitlement.

The duly constituted Interview Board shall assess all verified applicants under the three areas, using the following component-wise allocation:

Interview assessment component	Maximum marks
Research aptitude	10
Subject knowledge	10
Proposed research area	10
Total	30

Research aptitude shall cover analytical ability and understanding of an appropriate research approach. Subject knowledge shall cover conceptual understanding relevant to the discipline. Assessment of the proposed research area shall consider clarity, relevance, potential contribution and feasibility, informed by the statement of purpose and discussion.

Use Annexure B to record attendance, certificate verification, caste/category, EWS and PwD status, PG percentage, qualifying-examination particulars and marks, NET score validity and component-wise interview marks. The Department shall verify the originals and certify the recorded particulars. The Board shall use the same assessment procedure throughout the subject. All members shall sign the marks statement and authenticate corrections. Record any conflict of interest and deal with it under the University procedure.

Submission of records and provisional candidature

7 Submission and result processing

The HOD shall forward the completed and certified Annexure B, supporting certificate/scorecard copies and Interview Board proceedings to the Director, Research, Innovation, Incubation, Industry Linkage and Entrepreneurship **by 23rd November 2026.**

Account for every applicant in Annexure A, including those interviewed, absent, wherever applicable. The Directorate shall compile the Department-certified records, calculate the applicable final scores under Section 3, apply the approved subject-wise vacancies and reservation roster, and prepare the provisional selection list for approval by the competent authority.

8 Conditions of provisional candidature

Admission remains subject to verification of eligibility and authenticity of documents, applicable merit and reservation, approved vacancies, availability of a recognised supervisor within the permitted intake, and approval by the competent authority. The University may correct a verified clerical or calculation error and shall communicate any resulting material correction.

An incorrect claim, suppression of material information, forged document or ineligibility detected at any stage may lead to cancellation of candidature or admission following the applicable procedure. Disputed claims shall be decided on the records under the governing regulations and approved admission provisions, subject to any binding order applicable to the process.

Director
Research, Innovation, Incubation,
Industry Linkage and Entrepreneurship
